Dear Ms. Baker:

Thank you for your facsimile of August 12 to Secretary of Transportation Mary E. Peters concerning the potential tolling of I-80 in Pennsylvania. I am happy to respond.

On October 15, 2007, the Pennsylvania Department of Transportation (PennDOT) and Pennsylvania Turnpike Commission (PTC) submitted a joint application to the Federal Highway Administration (FHWA) to toll I-80. Specifically, PennDOT and PTC applied to toll I-80 under the Interstate System Reconstruction and Rehabilitation Pilot Program (ISRRPP) at section 1216(b) of the Transportation Equity Act for the 21<sup>st</sup> Century (TEA-21).

Section 1216(b) of TEA-21 has several specific eligibility and selection requirements that must be satisfied in order for FHWA to approve PennDOT and PTC's application. In reviewing the application, we will conduct a thorough analysis of the application's merits based on the statutory criteria to determine if the selection of I-80 in Pennsylvania for one of three nationwide tolling pilot authorities is appropriate. As part of this review process, FHWA, on December 12, 2007, submitted a list of questions to PennDOT and PTC concerning the information contained in their application. On July 22, PennDOT and PTC submitted a revised application to FHWA in response to the Agency's December 12, 2007, questions. The FHWA is currently reviewing this revised application.

The approval of any application under this program is a discretionary decision. Accordingly, in addition to considering the statutorily required eligibility and selection factors, we will take into account a variety of factors including, but not limited to, actual or expected competition from other Interstate facilities. I can assure you we are working diligently to assess these issues.
